

Standard Parameters

Model	CC10	
Max. Load	1000kg	2200lb
Maximum longitudinal slope	45°	
Maximum transverse slope	30°	
Stowed length	1135mm	44.68"
Stowed width	700mm	27.56"
Stowed height	500mm	19.68"
Maximum extended length	1660mm	65.35"
Maximum extended width	1210mm	47.6"
Gross weight	494 kg	1088lb
Travel speed	2.38km/h	
Motor power	0.85kw	
Power	24v AGM Battery	
Track width	180mm	
Controller	Cable + Radio control	

Dimensions

Standard Features

- **Pure Electric, no hydraulic**, Zero emissions, ultra-low noise, and reduced operating costs.
- **1-Ton Load Capacity**, easily carrying heavy stuff, i.e. equipment or bulk goods to job site with narrow entrance.
- **Rubber Tracks for All Terrains**. Built to deal with the tough terrain applications.
- **Wireless Remote Control**, facilitates passing through tight spaces, hazardous zones, or complex routes with precision—up to **100-meter range**. Nevertheless, it has cable console.
- **Superior Climbing Capability: 17° (loaded) / 45° (unloaded)**
